

Jet City Velo Club/ByrneInvent Cycling Team Operating Principles

- JCV/BI is an inclusive organization. Our membership is open to all cyclists that share our passion for the sport and that agree to ride in a safe and appropriate manner and in a way that reflects positively on our sponsors and others in the cycling community.
- While the core of our racing team consists of Masters riders, we value all members, including those that do not race and participate only in the club aspects of the team.
- JCV/BI supports cycling in our community through organized team training rides, by racing as a team on the road and on the track, through local race sponsorship, through advocacy for issues that are important to cyclists, and by providing a social network for like-minded cyclists.
- JCV/BI seeks to strengthen the cycling community through support for Northwest Junior cycling.
- JCV/BI members give back to the cycling community and the team and support the team and team events through participation and volunteerism.
- Resources of the organization go primarily to support our team members' cycling activities.
